

## Are you prepared for a compromised water event?

### Nephros Point-of-Use Water Filters

- FDA 510(k)-cleared to retain bacteria in water for emergency response at critical control points
- Produce water that is suitable for cleaning of equipment used in medical procedures and washing of surgeon's hands
- Provide a 90-day FDA 510(k)-cleared solution to provide time for remediation and install a programmatic filtration solution
- Keep a **Nephros Point-of-Use Emergency Kit** on hand for immediate deployment at sinks, showers, or any point-of-use application

#### Nephros Point-of-Use Emergency Kit

Item # 70-0297F

- (4) S100 Sink Spout Filters
- (4) S100 Shower Handheld Filters
- (4) CPC Sink Adapters (for sinks)

To aid in infection control, we recommend our in-line models which are FDA 510(k)-cleared to retain bacteria, viruses, and endotoxins for 90-180 days. For use with sinks, showers, lab equipment, and ice machines, our in-line solutions are ideal control measures for any water management program.

#### Nephros SSU-H In-line Filter

- Item # 70-0285 (Quick Connect)
- Item # 70-0286 (Threaded)

#### Nephros DSU-H In-line Filter

- Item # 70-0283 (Quick Connect)
- Item # 70-0284 (Threaded)
