

34-Series Water Filters for Soluble Lead; Chlorine, Taste, and Odor+

The Nephros 34-Series filter is ideal for the reduction of lead in your water, along with chlorine, taste, odor, cysts, and Class 1 particulates.⁽¹⁾ This model type creates high-quality water for beverage or food applications, and ice machines.

- Tested according to NSF/ANSI 42 and 53 standards for the reduction of chlorine, taste, odor, particulates, lead and cysts
- Independently tested to reduce up to 99%+ of lead that may be in your drinking water per NSF/ANSI 53⁽²⁾
- Protects mechanical systems from clogging
- Supports extended equipment life and reduces maintenance and energy costs

Filter Specifications

Reductions:	70-34095-x60⁽³⁾	
Lead	Flow Rate	2.5 GPM
Chlorine	Gallon Rating	9,500
Taste	Micron Rating	1
Odor	Filter Size	17" L x 3" D
Cysts	Temperature	35-100°F
Particulate (Class I)	Pressure	30-100 psi

Product Numbers

Filter Cartridges	70-34095-A60
	70-34095-E60
	70-34095-C60
Everpure Manifold ("E" Key)⁽⁴⁾	70-00000-E1M (Single Stage Manifold, BAS)
	70-00001-E1M (Single Stage Manifold, ENH)

(1) Particles 0.5 to 1 micron in size. (2) Reduced 150 ppb to less than 5 ppb in independent testing. (3) "x" in product number indicates availability in the following keys: A = Proprietary, E = Everpure; C = Cuno; Cuno keys are available with minimum order quantity of 1,000 filter units. (4) Additional manifold options available for dual-, triple-, and quad-stage setups; BAS = Basic (built-in water shutoff valve); ENH = Enhanced (built-in water shutoff valve plus built-in water pressure gauge).
