

19-Series Water Filters for Total PFAS,⁽¹⁾ Lead, Cysts, Asbestos+

The Nephros 19-Series filters are ideal for removing a broad spectrum of “forever chemicals” with Total PFAS protection, including PFOA and PFOS, two of the most prominent forever chemicals of concern. Additionally, it removes lead, cysts, asbestos, chlorine, taste, odor (CTO), and Class 1 particulates.⁽²⁾ This model type protects against persistent, bioaccumulative contaminants that threaten human health and environmental safety.

- Filtered water meets CDC, EPA, and state-level guidance for PFAS limits
- Ideal for facilities with strict water standards such as federal buildings, hospitals, schools, and other public spaces
- Multi-contaminant protection in a single cartridge
- Independently tested to NSF/ANSI 42 and 53 standards

Filter Specifications

Reductions:	70-19031-x60 ⁽³⁾
Total PFAS	Flow Rate 1.63 GPM
Lead	Gallon Rating 3.145
Cysts	Micron Rating 1
Asbestos	Filter Size 17" L x 3" D
Chlorine	Temperature 35-100°F
Taste	Pressure 30-100 psi
Odor	
Particulate (Class I)	

Product Numbers

Filter Cartridges	70-19031-A60 70-19031-E60 70-19031-C60
Everpure Manifold ("E" Key) ⁽⁴⁾	70-00000-E1M (Single Stage Manifold, BAS) 70-00001-E1M (Single Stage Manifold, ENH)

(1) Total PFAS reduction as a mixture of seven PFAS compounds including PFOA, PFOS, PFHxS, PFNA, PFHpA, PFBS, and PFDA. (2) Particles 0.5 to 1 micron in size. (3) "x" in product number indicates availability in the following keys: A = Proprietary, E = Everpure. (4) BAS = Basic (built-in water shutoff valve); ENH = Enhanced (built-in water shutoff valve plus built-in water pressure gauge).
